

1st Greater Manchester Nursing Associate/ Student Nursing Associate Conference

Overview:

The Nursing Associate's role was introduced to build the capacity of the nursing workforce and enhance the delivery of high-quality care. It supports nurses and wider multidisciplinary teams by allowing them to focus on more complex clinical duties.

This conference delves into the Nursing Associates (NAs) vital role and investigates career progression, highlighting the impact of continuous professional development and advanced opportunities..

This event will celebrate the Nursing Associate role, explore career development pathways within organisations, how they can benefit organisations, and drive conversations on advancing healthcare through this pivotal workforce.

What To Expect

- A Celebration of the Registered Nursing Associate Role.
- Inspiring Case Studies: Examples of how the RNA role has evolved across healthcare settings.
- Continuous Professional Development (CPD) Opportunities.
- Comprehensive Overview of the Nursing Associate Role.
- The Impact of Registered Nursing Associates on Organisations and Service Users.

Intended Audience
